

Methode PowerFlex Cable HV2/0-225-C

Power Solutions Group is a global leader in the design and manufacture of highly flexible, low-voltage-drop power cabling systems. Our extensive line of innovative power cables, crimpless lugs and termination options can be easily customized to meet the most challenging power-distribution applications. We offer total solution support—from design concept through engineering prototype to production. All our products are RoHS and REACH compliant.

This product is sold in 50, 100, and 250 foot minimums per spool.

Methode PowerFlex Cable HV2/0-225-C

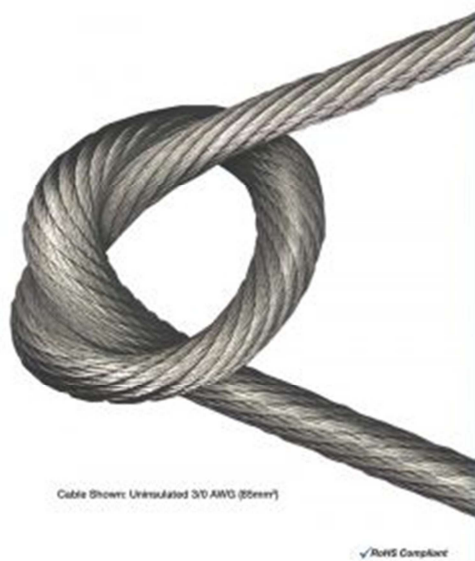

Methode PowerFlex Cable HV1/0-205-C

Power Solutions Group is a global leader in the design and manufacture of highly flexible, low-voltage-drop power cabling systems. Our extensive line of innovative power cables, crimpless lugs and termination options can be easily customized to meet the most challenging power-distribution applications. We offer total solution support—from design concept through engineering prototype to production. All our products are RoHS and REACH compliant.

This product is sold in 50, 100, and 250 foot minimums per spool.

Methode PowerFlex Cable HV1/0-205-C

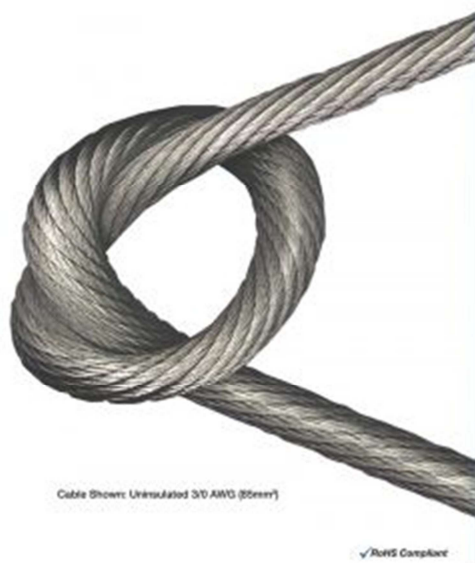

Methode PowerFlex Cable HV2-140-C

Power Solutions Group is a global leader in the design and manufacture of highly flexible, low-voltage-drop power cabling systems. Our extensive line of innovative power cables, crimpless lugs and termination options can be easily customized to meet the most challenging power-distribution applications. We offer total solution support—from design concept through engineering prototype to production. All our products are RoHS and REACH compliant.

This product is sold in 50, 100, and 250 foot minimums per spool.

Methode PowerFlex Cable HV2-140-C

Methode PowerFlex Cable HV4-105-C

Power Solutions Group is a global leader in the design and manufacture of highly flexible, low-voltage-drop power cabling systems. Our extensive line of innovative power cables, crimpless lugs and termination options can be easily customized to meet the most challenging power-distribution applications. We offer total solution support—from design concept through engineering prototype to production. All our products are RoHS and REACH compliant.

This product is sold in 50, 100, and 250 foot minimums per spool.

Methode PowerFlex Cable HV4-105-C

Methode PowerFlex Cable HV6-85-C

Power Solutions Group is a global leader in the design and manufacture of highly flexible, low-voltage-drop power cabling systems. Our extensive line of innovative power cables, crimpless lugs and termination options can be easily customized to meet the most challenging power-distribution

applications. We offer total solution support—from design concept through engineering prototype to production. All our products are RoHS and REACH compliant.

This product is sold in 50, 100, and 250 foot minimums per spool.

Methode PowerFlex Cable HV6-85-C

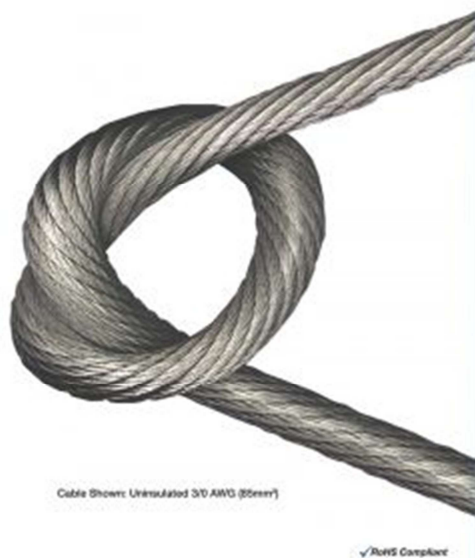

Methode PowerFlex Cable HV8-55-C

Power Solutions Group is a global leader in the design and manufacture of highly flexible, low-voltage-drop power cabling systems. Our extensive line of innovative power cables, crimpless lugs and termination options can be easily customized to meet the most challenging power-distribution applications. We offer total solution support—from design concept through engineering prototype to production. All our products are RoHS and REACH compliant.

This product is sold in 50, 100, and 250 foot minimums per spool.

Methode PowerFlex Cable HV8-55-C

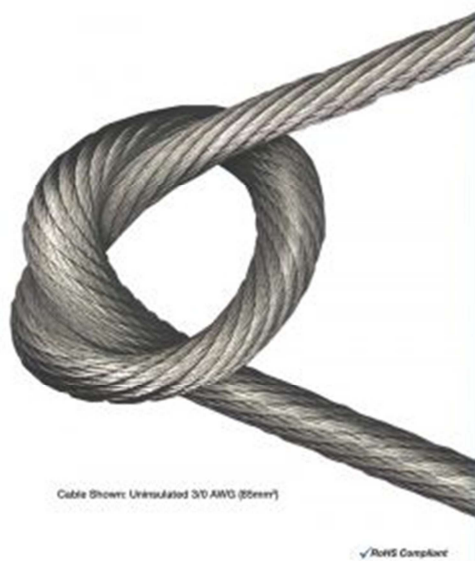

Methode PowerFlex Cable HV10-40-C

Power Solutions Group is a global leader in the design and manufacture of highly flexible, low-voltage-drop power cabling systems. Our extensive line of innovative power cables, crimpless lugs and termination options can be easily customized to meet the most challenging power-distribution applications. We offer total solution support—from design concept through engineering prototype to production. All our products are RoHS and REACH compliant.

This product is sold in 50, 100, and 250 foot minimums per spool.

Methode PowerFlex Cable HV10-40-C

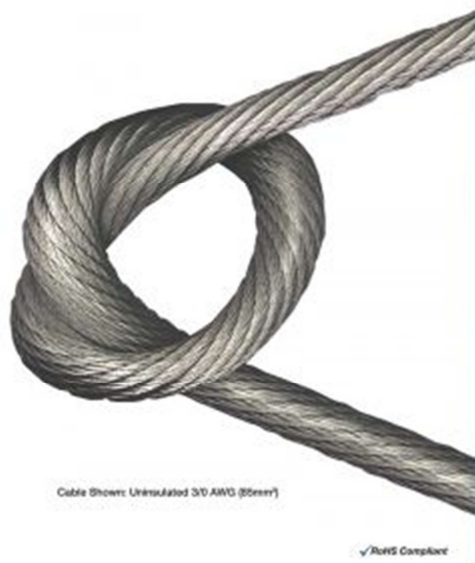

Methode PowerFlex Cable HV12-25-C

Power Solutions Group is a global leader in the design and manufacture of highly flexible, low-voltage-drop power cabling systems. Our extensive line of innovative power cables, crimpless lugs and termination options can be easily customized to meet the most challenging power-distribution applications. We offer total solution support—from design concept through engineering prototype to production. All our products are RoHS and REACH compliant.

This product is sold in 50, 100, and 250 foot minimums per spool.

Methode PowerFlex Cable HV12-25-C

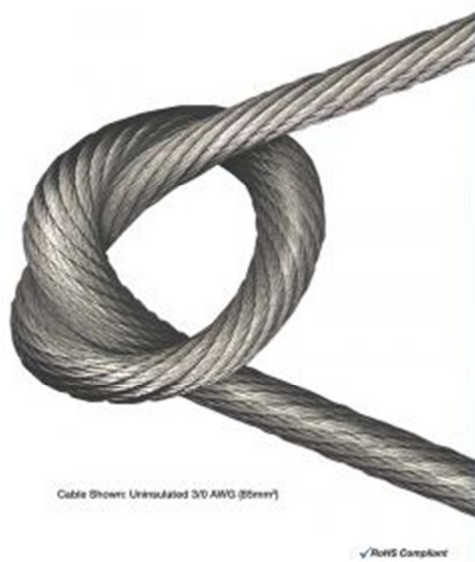

Methode PowerFlex Cable HV14-20-C

Power Solutions Group is a global leader in the design and manufacture of highly flexible, low-voltage-drop power cabling systems. Our extensive line of innovative power cables, crimpless lugs and termination options can be easily customized to meet the most challenging power-distribution applications. We offer total solution support—from design concept through engineering prototype to production. All our products are RoHS and REACH compliant.

This product is sold in 50, 100, and 250 foot minimums per spool.

Methode PowerFlex Cable HV14-20-C

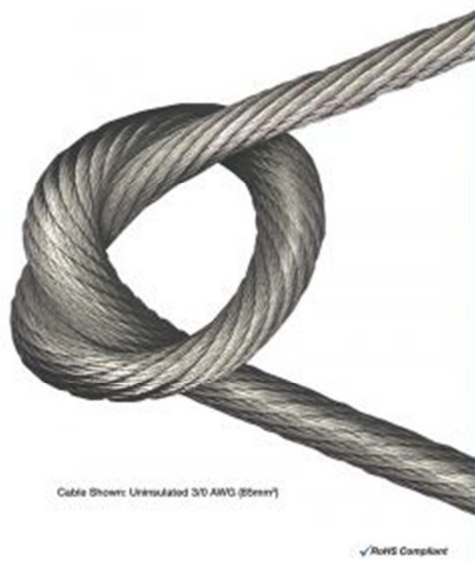

Methode PowerFlex Cable HV16-16-C

Power Solutions Group is a global leader in the design and manufacture of highly flexible, low-voltage-drop power cabling systems. Our extensive line of innovative power cables, crimpless lugs and termination options can be easily customized to meet the most challenging power-distribution

applications. We offer total solution support—from design concept through engineering prototype to production. All our products are RoHS and REACH compliant.

This product is sold in 50, 100, and 250 foot minimums per spool.

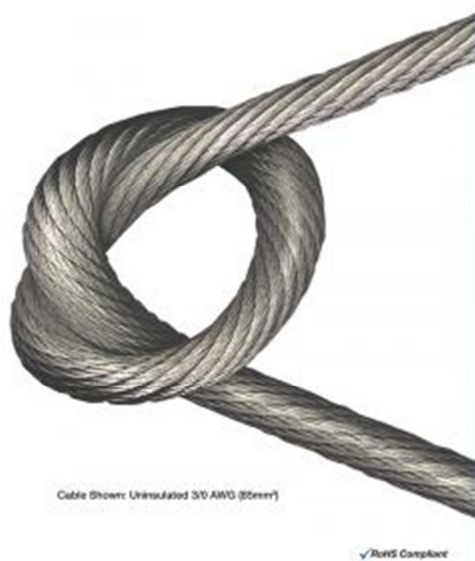

Methode PowerFlex Cable HV16-16-C

Methode PowerFlex Cable HV18-12-C

Power Solutions Group is a global leader in the design and manufacture of highly flexible, low-voltage-drop power cabling systems. Our extensive line of innovative power cables, crimpless lugs and termination options can be easily customized to meet the most challenging power-distribution applications. We offer total solution support—from design concept through engineering prototype to production. All our products are RoHS and REACH compliant. This product is sold in 50, 100, and 250 foot minimums per spool.

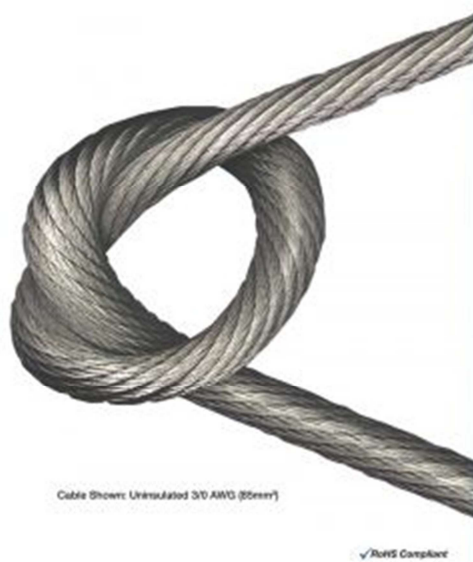

Methode PowerFlex Cable HV18-12-C

Methode PowerFlex Cable CD-0327-3B

Power Solutions Group is a global leader in the design and manufacture of highly flexible, low-voltage-drop power cabling systems. Our extensive line of innovative power cables, crimpless lugs and termination options can be easily customized to meet the most challenging power-distribution applications. We offer total solution support—from design concept through engineering prototype to production. All our products are RoHS and REACH compliant. This product is sold in 50, 100, and 250 foot minimums per spool.

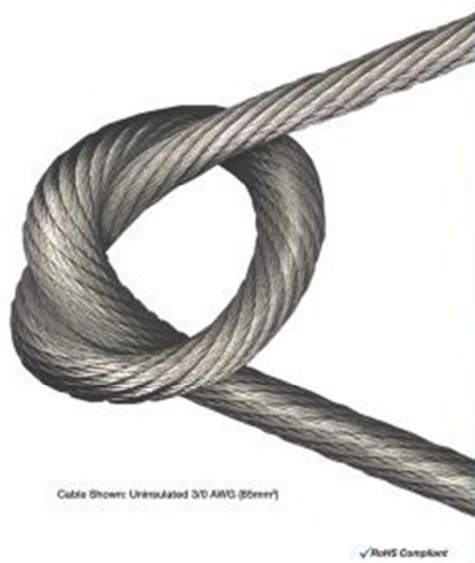

Methode PowerFlex Cable CD-0327-3B

Methode PowerFlex Cable CD-0324-3R

Power Solutions Group is a global leader in the design and manufacture of highly flexible, low-voltage-drop power cabling systems. Our extensive line of innovative power cables, crimpless lugs and termination options can be easily customized to meet the most challenging power-distribution applications. We offer total solution support—from design concept through engineering prototype to production. All our products are RoHS and REACH compliant. This product is sold in 50, 100, and 250 foot minimums per spool.

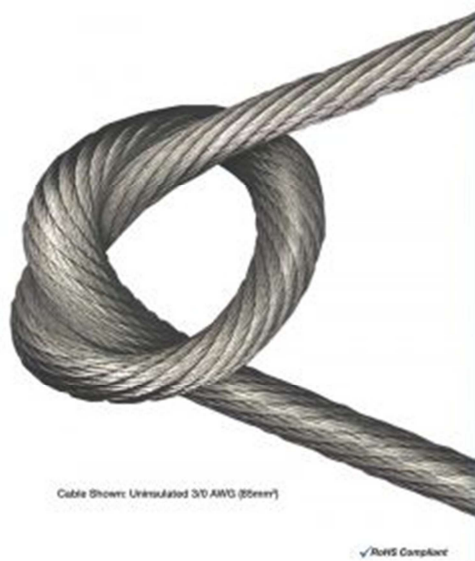

Methode PowerFlex Cable CD-0324-3R

Methode PowerFlex Cable CD-0321-3B

Power Solutions Group is a global leader in the design and manufacture of highly flexible, low-voltage-drop power cabling systems. Our extensive line of innovative power cables, crimpless lugs and termination options can be easily customized to meet the most challenging power-distribution applications. We offer total solution support—from design concept through engineering prototype to production. All our products are RoHS and REACH compliant. This product is sold in 50, 100, and 250 foot minimums per spool.

Methode PowerFlex Cable CD-0321-3B

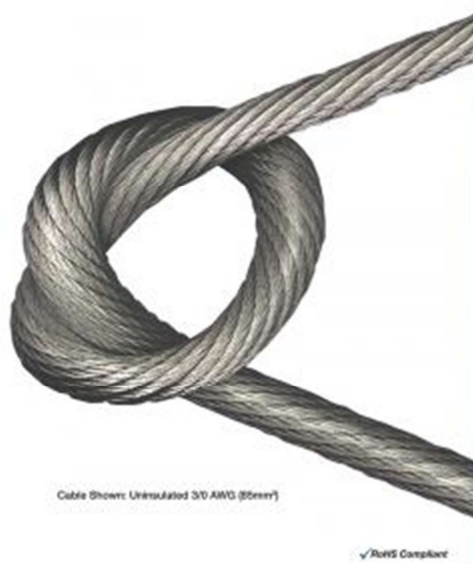

Methode PowerFlex Cable HV4/0-300-X

Power Solutions Group is a global leader in the design and manufacture of highly flexible, low-voltage-drop power cabling systems. Our extensive line of innovative power cables, crimpless lugs and termination options can be easily customized to meet the most challenging power-distribution applications. We offer total solution support—from design concept through engineering prototype to

production. All our products are RoHS and REACH compliant. This product is sold in 50, 100, and 250 foot minimums per spool.

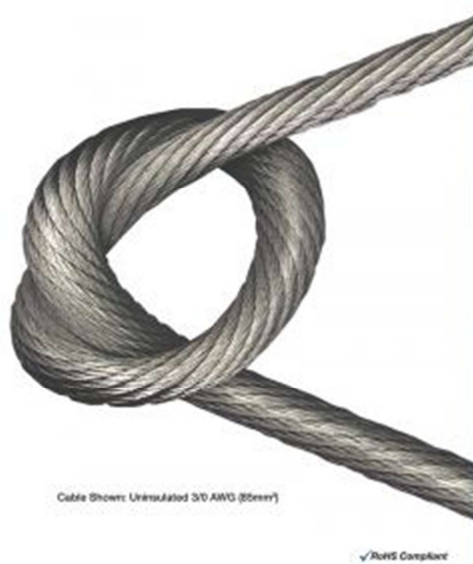

Methode PowerFlex Cable HV4/0-300-X

Methode PowerFlex Cable EF4/0-300-X

Power Solutions Group is a global leader in the design and manufacture of highly flexible, low-voltage-drop power cabling systems. Our extensive line of innovative power cables, crimpless lugs and termination options can be easily customized to meet the most challenging power-distribution applications. We offer total solution support—from design concept through engineering prototype to production. All our products are RoHS and REACH compliant. This product is sold in 50, 100, and 250 foot minimums per spool.

Methode PowerFlex Cable EF4/0-300-X

Methode PowerFlex Cable HV2/0-225-X

Power Solutions Group is a global leader in the design and manufacture of highly flexible, low-voltage-drop power cabling systems. Our extensive line of innovative power cables, crimpless lugs and termination options can be easily customized to meet the most challenging power-distribution applications. We offer total solution support—from design concept through engineering prototype to production. All our products are RoHS and REACH compliant. This product is sold in 50, 100, and 250 foot minimums per spool.

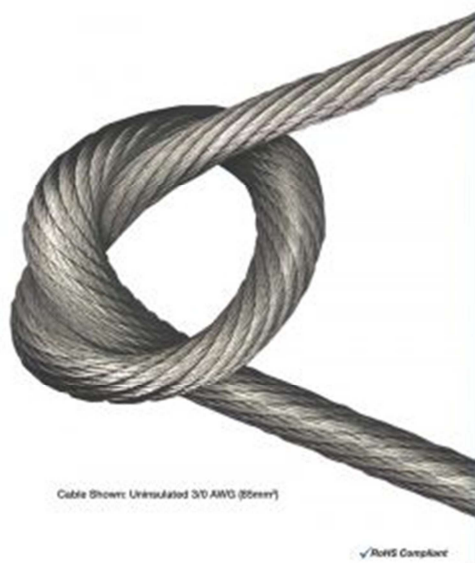

Methode PowerFlex Cable HV2/0-225-X

Methode PowerFlex Cable EF2/0-225-X

Power Solutions Group is a global leader in the design and manufacture of highly flexible, low-voltage-drop power cabling systems. Our extensive line of innovative power cables, crimpless lugs and termination options can be easily customized to meet the most challenging power-distribution applications. We offer total solution support—from design concept through engineering prototype to production. All our products are RoHS and REACH compliant. This product is sold in 50, 100, and 250 foot minimums per spool.

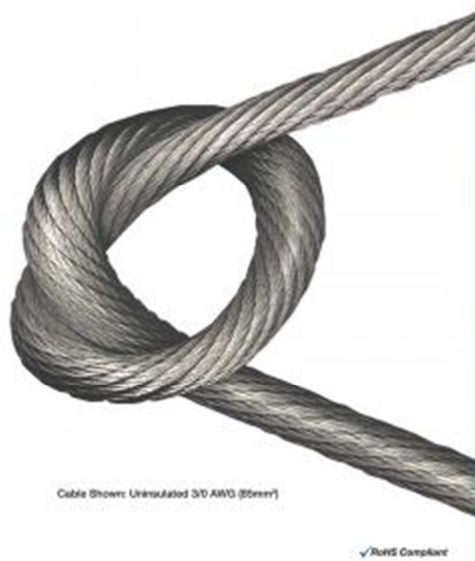

Methode PowerFlex Cable EF2/0-225-X

Methode PowerFlex Cable HV1/0-205-X

Power Solutions Group is a global leader in the design and manufacture of highly flexible, low-voltage-drop power cabling systems. Our extensive line of innovative power cables, crimpless lugs and termination options can be easily customized to meet the most challenging power-distribution applications. We offer total solution support—from design concept through engineering prototype to production. All our products are RoHS and REACH compliant. This product is sold in 50, 100, and 250 foot minimums per spool.

Methode PowerFlex Cable HV1/0-205-X

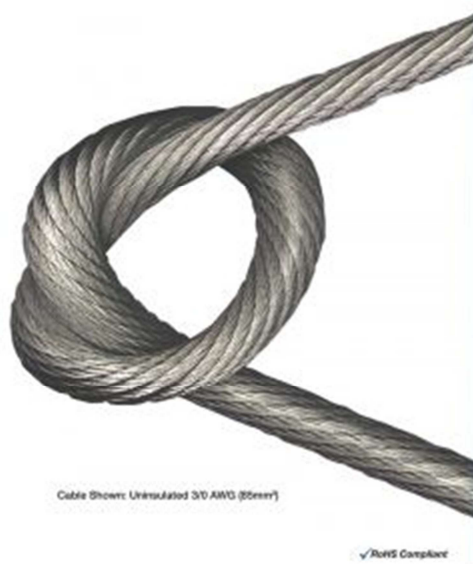

Methode PowerFlex Cable EF1/0-205-X

Power Solutions Group is a global leader in the design and manufacture of highly flexible, low-voltage-drop power cabling systems. Our extensive line of innovative power cables, crimpless lugs and termination options can be easily customized to meet the most challenging power-distribution applications. We offer total solution support—from design concept through engineering prototype to

production. All our products are RoHS and REACH compliant. This product is sold in 50, 100, and 250 foot minimums per spool.

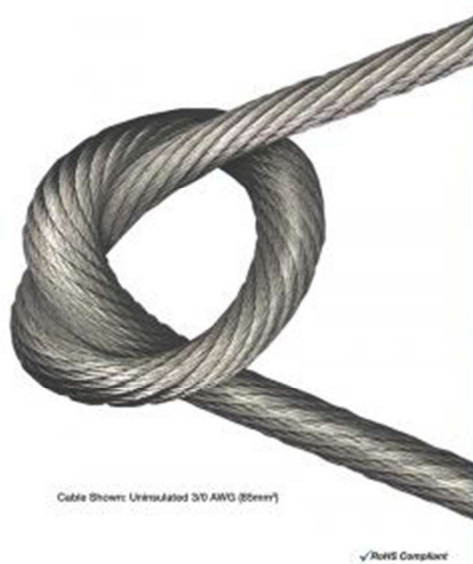

Methode PowerFlex Cable EF1/0-205-X

Methode PowerFlex Cable HV2-140-X

Power Solutions Group is a global leader in the design and manufacture of highly flexible, low-voltage-drop power cabling systems. Our extensive line of innovative power cables, crimpless lugs and termination options can be easily customized to meet the most challenging power-distribution applications. We offer total solution support—from design concept through engineering prototype to production. All our products are RoHS and REACH compliant. This product is sold in 50, 100, and 250 foot minimums per spool.

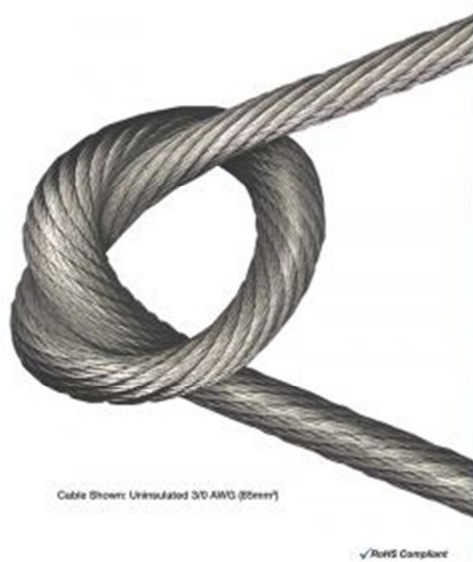

Methode PowerFlex Cable HV2-140-X

Methode PowerFlex Cable EF2-140-X

Power Solutions Group is a global leader in the design and manufacture of highly flexible, low-voltage-drop power cabling systems. Our extensive line of innovative power cables, crimpless lugs and termination options can be easily customized to meet the most challenging power-distribution applications. We offer total solution support—from design concept through engineering prototype to production. All our products are RoHS and REACH compliant. This product is sold in 50, 100, and 250 foot minimums per spool.

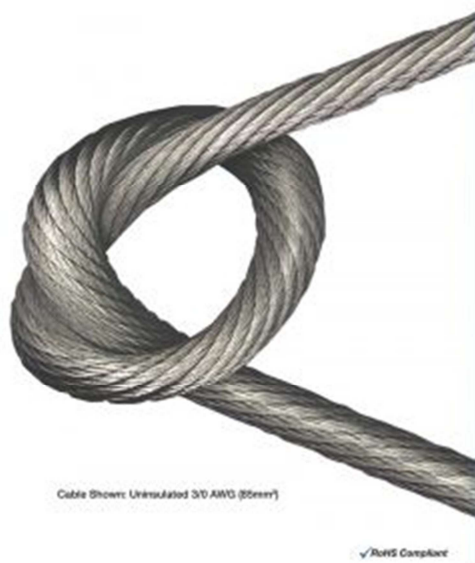

Methode PowerFlex Cable EF2-140-X

Methode PowerFlex Cable HV4-105-X

Power Solutions Group is a global leader in the design and manufacture of highly flexible, low-voltage-drop power cabling systems. Our extensive line of innovative power cables, crimpless lugs and termination options can be easily customized to meet the most challenging power-distribution applications. We offer total solution support—from design concept through engineering prototype to production. All our products are RoHS and REACH compliant. This product is sold in 50, 100, and 250 foot minimums per spool.
