

Connecting A World of Technologies

 **COOPER** Interconnect

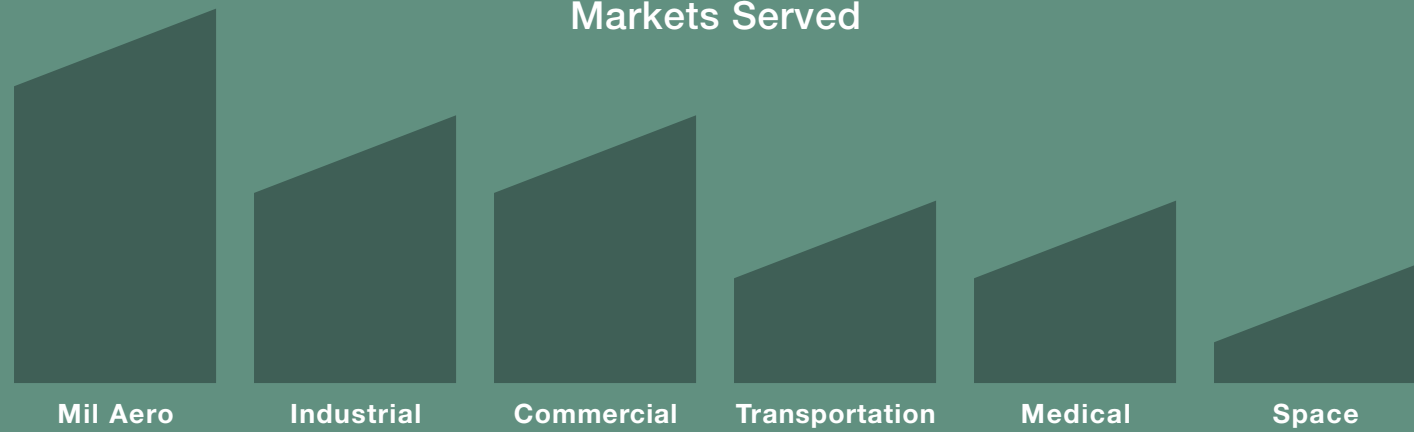

Cooper Crouse-Hinds Molded Products	WPI Interconnect Products	G&H Technology
Cam-Lok Posi-Lok	Viking General Connector Burton	Breech Lok Wing Lok

Cooper Interconnect designs and manufactures specialized electrical products that connect critical systems in the mil-aero, space, medical, commercial and industrial markets. Electrical system solutions are engineered for harsh environments requiring extreme thermal, pressure and humidity considerations. Products designed for new applications are prototyped through a quick turn process allowing quick assessment by our customers. Solutions you can trust in the most challenging conditions.

Markets Served

Connector Products and Technology

Mil-Spec Qualified

Metal connectors and accessories qualified to demanding military standards. Modifications available for specific applications.

Aircraft	MIL-DTL-38999 MIL-C-81790
Power	MIL-C-55181
Audio	MIL-C-55116
Class L	MIL-C-22992

Application Specific

Composite and hybrid connectors meeting application-specific demands for power, signal, optical and multi-media transmissions.

- Aircraft cabin systems
- Active seat-belt systems
- Single and multi-pole power
- Welding and equipment
- Factory automation
- Instrumentation

Connector Products and Technology

Cable Products and System Solutions

Harsh Environment

Harsh environment interconnect system solutions for demanding military and aerospace applications.

- Remotely activated disengagement
- Blind mate
- Stage separation
- Cryogenic
- Nuclear
- Subsea (10,000 psi)
- Wet-mateable

Military Aerospace

Interconnect system solutions for military, aerospace applications requiring significant environmental and material considerations.

- High-density, multi-leg capability
- Designed for EMI considerations
- Application-specific for difficult form considerations

Marine Subsea

Interconnect system solutions for marine and subsea applications requiring high-pressure resistant overmolding and sealing.

- Tow-ROVs-minesweeping
- Penetrators-well heads, hull
- Wet-mateable submersible interconnect systems

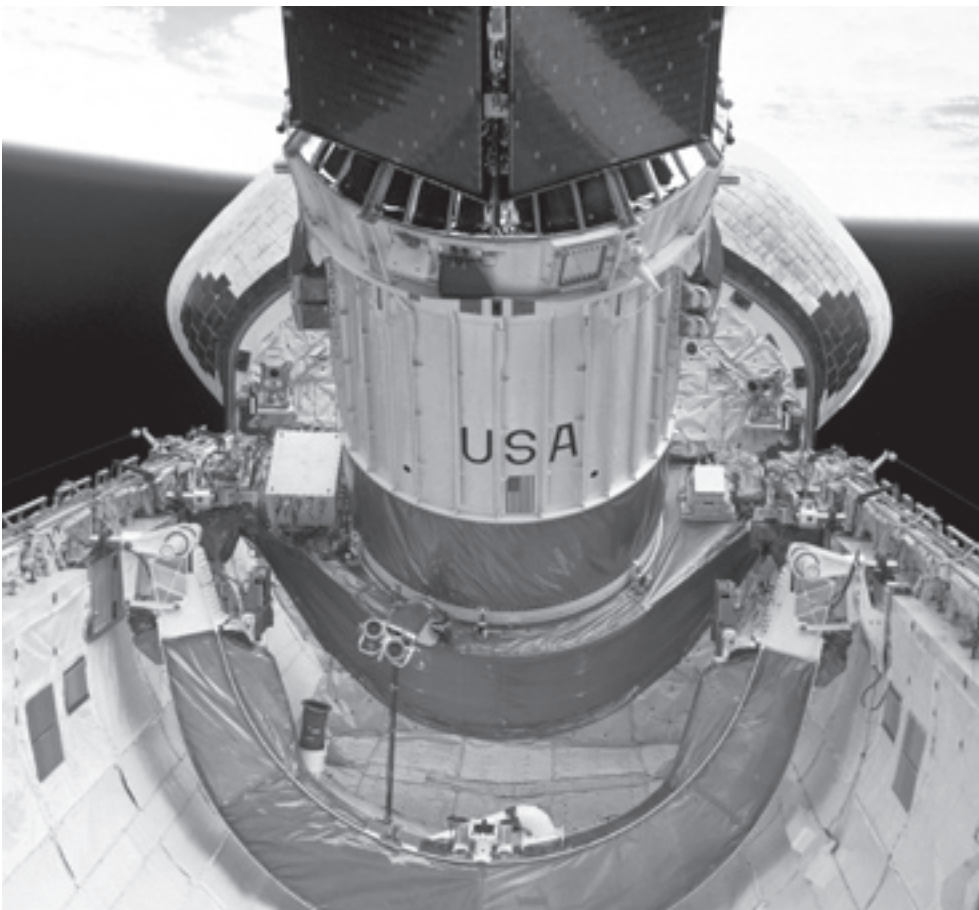

Cable Products and System Solutions

Commercial Industrial

Interconnect system solutions for industrial and commercial applications.

- Turnkey cabling systems
- Factory automation
- Equipment integration
- Product connectivity
- Power, data and optics

Solutions you can trust
in the most challenging conditions
